

# 1. Select your device and plan.

## + **Buy a phone**

Solavei offers the economical ZTE Origin Smart Phone at an economical price. 3.5" touch screen, GPS enabled, and over 500,000 Google Play apps at your fingertips.

## + **The Solavei Mobile Service Plan.**

Affordable and simple. That's how we like it. With the Solavei Mobile Service Plan, you'll enjoy UNLIMITED talk, text, and data for only \$49 per month – or even less!

## 2. Become a Solavei member.

### + **Download the Solavei App.**

Available for Android phones, the Solavei App covers everything you need to be a Solavei member. Enroll your friends and family, check out how much you've earned, connect with your personal network, and more, right from your Solavei phone.

### + **Check coverage.**

We have one of the leading 4G networks in the nation. But before you get started, it's a good idea to make sure we have the coverage you need to stay connected where it counts. Check out [Solavei.com](http://Solavei.com) for our simple coverage checker tool.

### + **Sharing with Solavei is simple.**

We believe in the power of sharing, and we want you to be able to share Solavei with family, friends, and connections. Once you finish enrolling, you'll be able to start your own Solavei personal network.

### 3. Share Solavei with your communities.

**+ Post on your social networks.**

The more you share, the more you receive. We've made it easy to share your Solavei moments with friends through Facebook, Twitter, Google+, LinkedIn, and more. By sharing, you'll have the opportunity to turn even more members onto Solavei.

**+ Share with friends and family.**

Once you start earning with Solavei, you'll want to let your friends and family in on the fun. It's as easy as talking about your new phone and the money you earn just for owning it.

**+ Enroll new members.**

We've made it easy for you to help friends, family, and members of your social networks with enrolling. You can get them started quickly, right from the Solavei App on your phone or through Solavei.com

## 4. Earn money.

### + **Compensation and bonuses.**

For each Trio you - and anyone in your personal network - create, you'll earn money. Just by enrolling 1 Trio within the first 60 days of your own enrollment, you'll earn a \$50 FAB (that's Fast Action Bonus)...and \$20 per month. Enroll more, and you earn more every month that you're a member. It really is that simple.

### + **How Trios work.**

Trios are the basis of Solavei compensation and bonuses. You achieve a Trio when you, or anyone in your personal network, enroll 3 connections with Solavei. For example, if you were to enroll 3 Solavei members, and one of them enrolls 3 more members, you'll have 2 Trios in your personal network.

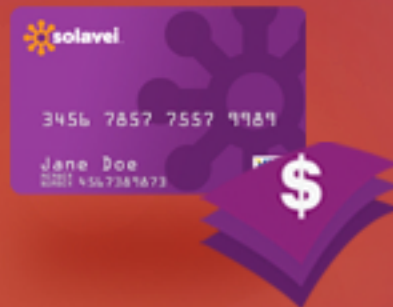

### + **How to earn.**

Here's how relationships can be so powerful. Instead of spending billions on national advertising campaigns, Solavei is powered by you. When you share, you earn. Just by adding one "Trio," you'll see your monthly cell phone bill shrink, and then soon you'll start earning money, just for using your phone and sharing Solavei with your connections.

## 5. Get paid on your Solavei PayCard.

### + **Payment and mobile wallet.**

Once you start earning money just by sharing Solavei, you'll be paid bi-weekly to your personal Solavei account, backed by MetaBank. With your Solavei PayCard, you can make purchases wherever Visa is accepted.

### + **Your earnings dashboard**

We've made it easy to check your Solavei earnings on the go. Log in to Solavei online or simply use the Solavei App on your phone for up-to-date information on how much you're earning by using your phone and sharing Solavei with others.
